The Honorable F. Ray Marshall
The Secretary of Labor
Washington, D.C. 20210

Dear Mr. Secretary:

In accordance with your letter to Admiral Turner of 26 February 1979, I am transmitting the Central Intelligence Agency's Annual Occupational Safety and Health Report for Calendar Year 1978. The report was prepared in consonance with the guidelines furnished by your office.

I am very pleased to point out the increased emphasis on training and inspections. The safety professionals received 780 hours of training (up from 653 in 1977), spent 569 hours conducting training (up from 559 in 1977), and inspected [redacted] overseas installations (up from [redacted] in 1977). Further, the International Loss Control Institute of Loganville, Georgia, conducted an evaluation of the organization, management, standards, effectiveness and resources of the CIA's Safety and Health Program in 1978, and the resulting recommendations are expected to greatly assist our personnel in strengthening the Program.

Please be assured of our continued efforts toward full compliance with the Occupational Safety and Health Act and Executive Order 11807.

Sincerely,

/s/ Frank C. Carlucci
